Bits, Bytes, and Bots – Robotics *

June 7 - 11, 2010

Morning Session

8:30 – 12:00, open to students 7 - 11 years old, \$265.00 (early bird price for registering before April 1, 2010), \$285.00 for after April 1, 2010. 5% discount available for registration for both morning and afternoon session and more than one child.

This exciting class teaches you how to build and program the LEGO® Mindstorms® NXT robots, the coolest robot available. You will use your new skills to meet such challenges as reacting to intruders, moving objects to different locations, stinging an intruder with a robot tail, or beating your opponent at LEGO® Sumo, a BBB favorite. You don't need any experience with robotics or programming to begin your robotic adventure. Students who took our robotics After School Class can take this for a more solid foundation or move on to the Advanced Robot Challenges. All robot classes will be taught with the new LEGO® Mindstorms® NXT robot. The new robot system includes a new programming language, a new building system, and new sensors, including a sound sensor and ultrasonic sensor. ***Robots are for use by students in class**

only. The robots are expensive, and students will not be able to take them home.

Bits, Bytes, and Bots – Game Creation

June 7 – 11, 2010

Afternoon Session

1:00 – 4:30, open to students 7 - 11 years old, \$265.00 (early bird price for registering before April 1, 2010), \$285.00 for after April 1, 2010. 5% discount available if you register for both the morning and afternoon session or more than one child.

If you think playing computer games is fun, think what a blast learning to program your own games will be. Your imagination is the limit as you use GameMaker software to create maze, strategy, and a variety of other types of games. You'll learn about creating sprites, objects, events and actions. Design a room, make it look the way you want, add objects and play your game. We'll teach you how to display health, lives, score, splash screens and high score tables. Using drag and drop programming, you'll be creating exciting, professional looking games you can play with your friends.

You can keep making games when you get home as the software is an inexpensive download from the Internet. If you think you've got a great idea for a game, you want to see what it would be like to be a game designer, or you just think computer games are fun, this class is for you. You must be experienced using a computer to take this class. If you've taken our Game Creation After School Class, this class goes into greater depth and reinforces previous learning.
