Your smile can help save lives!

Between now and May 30th, a \$50.00 donation entitles you to a custom portrait session. Regularly \$125.00! Your \$50.00 donation goes directly to the Cystic Fibrosis foundation.

How it works...

Your portrait includes a pre-portrait discussion of clothing, style and location choices, and it may be used for families, children, couples or individuals. This portrait can be created in the comfort of your home, in the scenic outdoor surroundings, or under the controlled lights of our studio.

Why are we doing this?

Ellie is our youngest daughter and was diagnosed with Cystic Fibrosis.

What to do now?

1. Think about what type of portrait you would enjoy.
2. Call us at 303 666-6672 within ten days to let us know that you are interested in a portrait.
Portraits can be photographed through May 30th.
3. Look forward to an enjoyable portrait experience and feel good about being a part of the cure for Cystic Fibrosis.

What is Cystic Fibrosis?

CF is a genetic disease affecting 30,000 children and adults in the United States. A abnormal gene causes the body to produce an thick, sticky mucus. This abnormal mucus leads to chronic and life-threatening lung infections and impairs digestion. Currently, there is no cure but research is promising!
